Learning Center News

The Autumn Leaf

It all started with a very cold breeze. I started changing colors from a light green to a beautiful orange and red. After awhile of waiting for minutes, it turns to hours, those hours turn to days, those days turn to weeks, those weeks turn to a month.

That's when it happened. I fell from my tree. It does not matter anymore, the wait is over. My friends are falling with me. That's when my happiness fades away. I will make more room and time for my reincarnations.

Start the Year with a Smart Lunch

A “Smart Lunch” is one that takes into consideration the taste preferences of kids but also packs all the nutrition a child needs to learn and grow. Although it seems simple, proper meal planning can be tough. Building a healthy lunch means filling up on fruits and vegetables, as well as lean proteins and wholesome grains. This balanced approach to eating is consistent with the National School Lunch meal planning guidelines where children are encouraged to select foods from all food groups, at least 50% or more of the grains are whole grain rich and students are required to take at least ½ cup of fruits or vegetables. Planning meals this way helps ensure students are:

1. Getting the right mix of nutrients to promote good health and focus in the classroom.
2. Eating enough fiber every day.
3. Reducing their intake of added fats, sugars and sodium.
4. Filling up their bellies and feeling satisfied after a meal without over-doing it with too many unnecessary calories.

Take a moment to review the school lunch menu with your children and talk about what food choices would be best for their lunch. If you have questions about the meal program, please contact your school foodservice manager. We look forward to helping ensure your child is satisfied, nourished and ready to achieve!
